

SYNTHETIC TRAINING FIXTURE - NOT A REAL STANDARD OR CERTIFICATION RECORD
SYN-EMC-LAB-202 Bonding and Shielding Teaching Card

[syn-pdf-text-02-sec-01] The synthetic service-panel seam teaching target is no more than 0.8 mm.

[syn-pdf-text-02-sec-02] Use a short flat bonding strap instead of a long round wire in this teaching setup.

[syn-pdf-text-02-sec-03] Remove coating at the bonding contact before the torque check.

[syn-pdf-text-02-sec-04] After a shielding change, repeat the same antenna position and cable layout.
